January 1963

DECEMBER UNIFORM PRICE \$3.89

Dairy farmers will receive a uniform price of \$3.89 for December 1962 deliveries of Grade A milk to handlers under the South Bend-LaPorte-Elkhart, Indiana, milk order. The uniform price is based upon a butterfat test of 3.5 percent, and will be adjusted by a differential of 7 cents for each one tenth percent that tests vary above or below the 3.5 percent standard. The minimum price is subject to a 4 cent per hundredweight marketing service deduction, together with the authorized hauling charge.

PRODUCER RECEIPTS

Daily average producer receipts are within .1 percent of what they were a year ago. The only difference from a year ago is that the same amount of milk was received from 36 less producers. The average daily production per herd is 786#, as compared with 745# for December 1961. Average daily receipts are almost 3 percent higher than in November 1962 and daily herd production is 26 pounds per herd more. The average butterfat test of producer milk is slightly higher than in November 1962 and December 1961.

CLASS I SALES

Daily Class I sales decreased from November about 6 percent. They are also 1.6 percent less than a year ago. The only products showing an increase over a year ago are skim milk products, chocolate milk and drinks, and eggnog. All other product sales were less than in the previous year.

BASE REGULATIONS

All producers requesting "new producer status" or having less than 90 days' production received by a handler in the months of September, October, November, and December 1962, will be paid on the following basis for April, May, June, and July 1963:

April	delivery	period	80%	at	"base";	20%	at	"excess"
May	delivery	period	76%	at	"base";	24%	at	"excess"
June	delivery	period	80%	at	"base";	20%	at	"excess"
July	delivery	period	83%	at	"base";	17%	at	"excess"

All producers who wish to request a "new producer status" for their earned base must have their <u>WRITTEN REQUEST</u> in the office of the Federal Milk Market Administrator, P. O. Box 216, South Bend 24, Indiana, by February 15, 1963.

CLASS I PRICE

The Class I price for the January 1963 delivery period will be \$4.17 per hundredweight for 3.5 percent milk. This price was computed by adding \$1.10 per hundredweight to the basic formula price (\$3.11), minus the 4 cent supply-demand adjustment. The supply-demand adjustment for the February 1963 delivery period will be a minus 10 cents.
